Don't miss the chance for your footage to be in a film premiering at this year's Sydney Film Festival

Screen Australia are funding the production of a film based on the footage you upload to *YouTube Map My Summer*.

YouTube Map My Summer aims to capture the essence of this pivotal time of year, as experienced by Australians. So pick up your cameras and upload your summer videos to the *Map My Summer* portal. This could be anything from a snippet of spontaneous mobile phone footage to a short film.

The film will be made by one of Australia's hot young directors with the help of legendary filmmaker **George Miller** (*Mad Max, Babe, Happy Feet*).
