CineMart co-production market application deadline

Monday 12 July 2010: The CineMart project submission deadline is **1 September 2010**.

The 40th International Film Festival Rotterdam (IFFR) will take place from 26 January to 6 February 2011. During the festival, the 28th edition of the international co-production market CineMart will be held from Sunday 30 January to Wednesday 2 February.

CineMart will again present 30–35 international projects to approximately 850 professionals from the international film industry, from sales agents, producers and distributors to television buyers and funding agencies.

It is a great opportunity for producers with new projects in development that are market ready who are seeking finance to pitch and network with the attending film professionals.

Projects can be in various stages of development, must not have been presented at other international co-pro markets, must have a director attached and have international potential.

All the regulations on how to apply and the online entry form are available on the IFFR website www.filmfestivalrotterdam.com/en/

Filmmakers with projects selected for participation at CineMart are eligible to apply for a Screen Australia travel grant. Applicants should visit the [travel grants page](#) for further information and discuss with Tresa Ponnor, Marketing Assistant Industry Support, on 02 8113 5835.
